Facebook: Blackburn Growers

### Shed Delivery

Blackburn's delivers sheds and buildings to all of New Jersey. Delivery charges generally range from \$100-\$300. We'll be happy to provide an estimated delivery cost.

Our delivery truck and trailer are able to reach remote areas and travel over rough terrain, as long as there are no major obstacles in the road or pathway.

### Shed Building Permit

Please check with your local municipality to determine if a Building Permit is required in your city or town.

### Site Preparation

In anticipation of the delivery of your building, we recommend that you follow these guidelines to prepare the site for installation:

- The area must be firm, flat and level.
- The prepared site should allow 12 inches on all sides beyond the dimensions of your building. (I.e. For an 8' x 10' building, prepare a 10' x 12' site.)
- A base of 3/4" crushed stone 4 inches deep is preferable. Another option is a concrete slab.
- Your site should allow sufficient access for delivery truck and trailer.
